WATER WORKS.

An Interesting Letter from the Chief Engineer of the Madison Water Works.

When the common council ordered an election to be held to decide the question of building water works in this city the Gazette sent letters to the city clerks of several cities in the West, where water works have been built, for the purpose of obtaining information that would be of benefit to our citizens in forming their opinions. So far but one answer has been received, and as that contains some of the information sought, we give it in full to our readers:

MADISON, Wis., Nov. 28, 1882.

DEAR SIR:—Your letter to the city clerk of Madison, relating to water works, has been handed to me to answer, and it gives me pleasure to write you as follows:

Our works, which are built after my plans and under my supervision are after what is known as the stand-pipe system. Water is obtained from the earth by means of artesian wells 750 feet deep. Work was commenced on them about June 1st, and the whole, except the stand pipe, will be completed this winter. There are 12 miles of mains, 38 fire hydrants and the maximum pumping capacity is 4,000,000 gallons per 24 hours.

The whole works, not including stand pipe, which will cost \$10,000 to \$12,000, and including the cost of the block of land upon which the pumping station is located, will be from \$100,000 to \$102,000. I succeeded in obtaining very favorable contracts and I doubt if the works could be duplicated for less than \$110,000.

We have been delayed in starting by the non completion of the pumping machinery, although otherwise we have been ready since about October 15th. We expect to begin the regular supply in less than one week, and the running expenses at the start will be at the rate of about \$4,500 per year if properly managed.

The city pay the cost of tapping the mains and of running the service pipe to the side walk, which expenso is charged to the construction account.

Already about seventy-five connections, have been made and a yearly revenue from this source of over \$2,500 secured.

The total number of applications for water are about one hundred thus far.

The annual cost of maintaining the fire department has averaged about \$4,000.

There will probably be no reduction in fire insurance rates until after the works are in regular running order, and an effort made to obtain such reduction.

Should any other questions arise, it would give me pleasure to answer them for you to the best of my ability.

Yours truly,

OSCAR B. DAVIS, Chief Engineer Madison Water Works.

P. S.—Insurance rates will be reduced here as much as fifteen per cent, at least so the insurance agents tell me.

WEDDING BELLS.

The Entertainment of the Janesville Bar Last Evening at the Residence of Judge John R. Bennett—A Happy Social Gathering and a Feast of Many Good Things.

Thirty-eight years ago yesterday, John R. Bennett and Miss Elsie L. Holloway, were married at Hounsfield, Jefferson county, New York, and four years after took up their residence in Janesville, where they have since lived in uninterrupted happiness. To fittingly celebrate the anniversary of that fortunate marriage, Judge and Mrs. Bennett invited the members of the bar and their families to join them in the festivities becoming such an occasion. There was a large number present, which almost completely filled the elegant rooms of the Judge's residence. Rarely, indeed, at a gathering of this kind, have we seen the people enter so heartily into the enjoyments provided by the genial couple whose wedding bells rang last night no less happily than they did thirty-eight years ago. Song and glee and roundelay; whist, euchre, and other games; good natured fun and happy anecdotes; and as a cap-sheaf and crown, a most royal supper, royally served, were but a part of the many enjoyments which made the hours seem to hasten with untoward speed.

The occasion was one that will be long remembered by all who were there, and there was not one who joined in the pleasures and profits of the hour, but that will most heartily wish Judge and Mrs. Bennett many more years of a happy union.

Those who accepted the kind invitation of the host and hostess, and were present, were: Mrs. Chas. G. Williams, Mrs. Judge Noggle, Congressman-elect John Winans, John J. R. Pease and his daughter May, O. H. Peckers and wife, H. A. Patterson and wife, Judge and Mrs. L. F. Patten and their daughter, Jessie, Colonel Pliny Norcross and wife, M. M. Phelps and wife, J. W. Sale and wife, and Miss Ella DeBarr, B. B. Eldridge and wife, M. S. Pritchard and Miss M. Hyer, A. D. Wickham and wife, H. H. Blanchard, Miss Minnie Jones, and C. E. Grant and A. Kavelaga, circuit court reporters. On account of previous engagements, Congressman Williams, and Judge Cassaday, of the supreme court, and several others, could not be present.

About the Halls.

We understand that Postmaster Patterson will make an effort to have a special mail pouch sent from Chicago to Janesville every Saturday night, reaching here about midnight, so that it can be distributed on Sunday morning. If this can be done it will be quite a benefit to the business men of this city. The largest mail of the week reaches here on Monday mornings, nearly all of which is Chicago and western mail. About three thousand letters, beside bushels of papers and packages come, by that mail, and most of it leaves Chicago on Saturday nights. Should the special pouch be sent up on Saturdays on the trains that leave Chicago 7:30 or at 9:00 p. m., business men will get their eastern mail one day earlier than at present, beside it will very much lessen the mail to be distributed on Monday mornings, which, on account of its bulk, frequently causes delay.

Another matter is being discussed which seems to be of some importance. A good deal of eastern mail now arrives in the morning on the Fond du Lac accommodation, coming up from Chicago by the way of Milwaukee and Watertown, which is worse than going around Robin Hood's barn. The plan discussed is to have that pouch sent up by the Dakota passenger which leave Chicago at 7:30 p. m., and arrives here at midnight, or on the St. Paul passenger, which leaves at 9:00 p. m., and reaches Janesville by the way of Afton at 1:10 a. m. It is claimed that this will be better than sending the mail around the state before it reaches here, and that it would bar the mishaps which sometimes occur by which no Chicago mail is received in the morning. Whether anything will come of the last move is not known.

If bilious, or suffering from impurity of blood, or weak lungs and fever consumption (scrofulous disease of the lungs) take Dr. Pierce's "Golden Medical Discovery" and it will cure you. By druggists.

The Weather.

The thermometer at 7 o'clock this morning registered 25 degrees above zero, and at 1 p. m. at 32 degrees above. Clear, with strong northerly wind.

For the corresponding hours one year ago the register was 47 and 54 degrees above.

WASHINGTON, Nov. 29, 1 a. m.—The following are the indications for to-day:

Upper Lake Region—Cloudy weather, with light snow, northeast, backing to northwest winds, stationary or lower temperature in eastern portion; higher pressure.

The Club.

Tom and Jerry, egg-nog, and hot scotch, at the new saloon, West Milwaukee street.

Palmer Bros., La Crosse, Wis., say: "We have had occasion to give Cole's Carbolicase the severest tests, and we never saw its equal for the cure of cuts, galls, scratches, boils, and all the general external remedy for sores. It cures without leaving a scar, and the hair always comes to its natural color." Price, 50 cents and \$1.00 a box.
